Profile

IT Systems and Networks technician (SMR) with 9 months of experience as an IT technician in a paid work-based training programme. I am currently studying modules of two higher vocational degrees at the same time, ASIR (network systems administration) and DAM (multiplatform application development), at Colegio Vedruna Vall (Terrassa). I am looking to join an IT support or systems team to solve incidents and help users. I enjoy learning new technologies and I learn from my mistakes: I analyse every failure until I find its cause.

Work experience

IT Technician — CASARRAMONA, S.A. Informàtica October 2025 – June 2026 (9 months)
Terrassa (Barcelona) · Paid work-based training contract (SMR vocational degree) · On-site

- Help Desk support for clients: troubleshooting and resolving incidents, installing Microsoft Office and removing unwanted software.
- Running and maintaining backups of client servers.
- Assembling, configuring and repairing servers; assembling, disassembling and repairing computers.
- Monitoring clients' cybersecurity from a management platform: antivirus and device status and updates.
- Customer service in the company's shop.

Technical skills

- **IT support (Help Desk):** troubleshooting and resolving hardware and software incidents, user support and setup of computers and peripherals.
- **Operating systems:** Windows 10/11, Windows Server and Linux (Ubuntu): installation, configuration, user accounts, permissions and updates.
- **Networking:** LAN, TCP/IP, IP addressing, DHCP, DNS, structured cabling and basic router and switch configuration.
- **Hardware and servers:** assembly, preventive and corrective maintenance, fault diagnosis and backups.
- **Cybersecurity:** antivirus management and updates, removal of unwanted software and security best practices.
- **Tools and programming:** Microsoft Office, Git, GitHub, AI tools (Claude Code) · C++ (learning).

Education

Higher Vocational Degree in Network Systems Administration (ASIR), selected modules 2026 – Present
Colegio Vedruna Vall, Terrassa · Operating systems (Windows and Linux), networking, hardware fundamentals and databases

Higher Vocational Degree in Multiplatform Application Development (DAM) 2026 – Present (1st year; expected: 2028)
Colegio Vedruna Vall, Terrassa · C++ programming, databases and SQL, development environments (Git) and computer systems

Vocational Degree in IT Systems and Networks (SMR) 2024 – 2026 · Work-based training · Average grade: 8/10
Salesians Terrassa · Computer assembly and maintenance, standalone and network operating systems, local networks and network services (DHCP, DNS, web, FTP), IT security and office software

Projects

TICO AI Assistant — AI-powered desktop assistant
Personal project · Built with AI assistance (Claude Code) · github.com/salmeronvictor486-lang/TICO-AI-ASSITANT

- Conceived and led the development of an app for Windows, macOS and Linux, using AI as a programming tool, and tested every version on all 3 operating systems.
- Released 6 versions with installers, a portable version and user guides; managed with Git, GitHub and GitHub Actions.

Soft skills

- **Customer service and communication:** I explain technical problems in simple words and with patience.
- **Active learning:** I learn by building real projects; I analyse failures, look for the root cause and document the solution.
- **Organisation and teamwork:** I study two higher vocational degrees at the same time; I collaborate and share what I learn.

Languages

- Spanish and Catalan: native
- English: B2 (upper intermediate), no official certificate
